The Science Supporting LiftSeat LIFTEK™CORE ASSISTIVE TECHNOLOGY

LiftSeat is powered by LiftTek™ Core Assistive Technology to reduce the physical force necessary to support the sit-to-stand (STS) motion path required for getting on and off the toilet. LiftTek is the result of ground-breaking research and product development focused on the biomechanics, kinematics and human factors related to toileting.

"LiftSeat is really a key to increased independence and increased safety for many of our patients."

— C. Neumann, OT Manager

Product Selection

Let LiftSeat toilet transfer your patients.

BENEFITS

SAFETY

- Mechanically lowers and raises patient reducing falls and caregiver injury

INDEPENDENCE

- Allows veteran to toilet independent of a caregiver
